Sayyid Ammar Al-Hakeem, head of the Iraqis Coalition, renewed the demand for the rights of the Faili Kurds on Sunday 4/4/2021.

His Eminence stated, "In memory of their oppression, we reiterate that we were, still and will continue to demand the rights of our beloved Faili Kurds, who were targeted first for being followers of the Ahl Al-Bayt "peace be upon them". And another because of their national affiliation." indicating that the issue of this cherished component and their redress is at the top of our concerns, urging the sons of the component with all their activities to unite their ranks and organize politically to engage in the benefits of the upcoming phase effectively to achieve their aspirations.
