

## Sayyid Ammar Al-Hakeem at Baghdad International Book Fair

Sayyid Ammar Al-Hakeem, head of the National State Powers Alliance, visited Baghdad International Book Fair on Wednesday, June 16, 2021.

His Eminence toured the halls of the fair looking at the international and local publishing houses. H.E. lauded holding a book fair during the current circumstances, and the cultural exposure to the world this fair represents through allowing foreign publishing houses to take part in the fair and display what they have to offer.

His Eminence had a signing session for his newly released publication, a book titled "Homeland Journey" published by "Inky Publishing", where this book talks about a glimpse of H.E. life after his departure until his return to the Homeland, and what challenges had faced him.
