Sayyid Al-Hakeem, head of the National State Powers Alliance, commended the German Judiciary over its recent ruling issued against the terrorists that were involved in perpetrating brutal crimes of genocide against the Yazidis.

His Eminence tweeted on Wednesday, December 1, 2021 “We commend the recent ruling issued by the German Judiciary against the terrorists that were involved in perpetrating brutal crimes of genocide against the Yazidis.”

His Eminence stated that this requires the Iraqi government, the Supreme Judicial Council, and the ministries of Justice and Foreign Affairs to double the efforts to communicate with the world and Interpol to chase down the terrorists who attack Iraqis and target the peace and security of the world, as this mission is a national and humanitarian one simultaneously.
