At the Iftar banquet held in honor of a group of educational competencies and elites on 11/4/2022, Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, lauded the Iraqi educational staff and its honorable history, stressing the importance of integrating roles between educationalists and other institutions.

His Eminence stressed the diversification of teaching methods, the importance of modernity in the presentation and interactions with students, and the importance of the educational institution to receive full care, warning against the negative consequences of some social media platforms on students.

His Eminence called on the educational family to contribute to reducing these consequences. H.E. added that the current generation was born in freedom and democracy, and it must be dealt with in light of the era in which it was born and raised.
