

Sayyid Al-Hakeem expresses concern over Jerusalem developments, renews support for the Palestinian cause

Sayyid Al-Hakeem, head of Al-Hikma National Movement, expressed his concern over the developments of events in the city of Jerusalem while renewing his position in support of the Palestinian cause.

His Eminence tweeted on 16/4/2022, " With tremendous concern, we are following the dangerous developments in the city of AL-Quds "Jerusalem" and the practices of the usurping Zionist entity, the latest of which is the suppression of worshipers in Al-Aqsa Mosque and the violation of its sanctity and desecration in an unfortunate and arbitrary manner."

His Eminence renewed his firm position and support for our Palestinian people and their just cause, urging the international community to take serious positions to save the oppressed Palestinian people from these arbitrary practices, and to convene an emergency session of the United Nations and the UN Security Council to discuss the repercussions of the crisis and prevent its expansion.
