

Sayyid Al-Hakeem: the trilogy of reference, clans, and rituals preserved Iraq and are still protecting it from suspicious schemes

Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, met Sheik Jassim Hadi Al-Shaalan Al-Uwaydi, congratulating him on the opening his new guest-place on 18/6/2022. His Eminence said during the meeting, which was attended by a group of Al-Uwaydi sheiks and dignitaries, that the guest-place of Al-Uwaydis is the host of dignity, chivalry, magnanimity, and courage, recalling the common history with them in decisive stations in the history of Iraq, where the relationship that fathers inherited from grandparents and passed them on to grandchildren, and the march of successive generations was consistent and coherent in loyalty For Islam and Ahl Al-Bayt "PBUT" and the supreme national interest.

His Eminence clarified the role of the triptych represented by the supreme religious authority, Iraqi tribes, and Husseini rituals in preserving Iraqi society, and that the tribe's role in confronting terrorism was a confrontation that even major countries can't confront for years and years, pointing to the seriousness of projects that seek to strike society from within, pulverize what has been achieved, spread frustration, and undermine everything that has been accomplished, indicating that the projects woven into Iraq did not stop at spreading frustration, but rather gone beyond to target the community by defaming its religious, social, tribal and scientific symbols and defaming the role model and leader figure within the community, warning of the consequences of these schemes, and holding everyone the responsibility for the victory for Iraq.
