

Sayyid Al-Hakeem calls on political powers, social actors to keep differences in their political frameworks

Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, called on the political powers and social actors to keep the differences in their political frameworks.

His Eminence tweeted on 24/8/2022, "In light of the accelerating political events in the Iraqi arena due to differing visions, intertwining interests and faltering solutions, which had a tremendous negative impact on the situation of the country, and resulted in harming citizens and disrupting their interests, and risked Iraq's reputation in front of the international public opinion. Hence, we call on political powers and social actors to keep differences within their political frameworks, preserve national symbols and shrines, and the prestige of state officials and the presidencies."

His Eminence considered it the right step on the path of building the state and restoring things to its right path.
