

Sayyid Al-Hakeem calls on educational families to foster children with disability, discover their talents

On the occasion of Children's Day, Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, met several orphans and people with disability, congratulating them on their day when the whole world celebrates in the name of Children. H.E. illustrated that childhood is one of the most important stages of human life for the purity and love of life.

H.E. indicated that the real disability is a disability of the mind not the body or loss of limbs. H.E. also called upon the educational family to foster people with disability, discover their energy, and work on supporting and developing it. H.E. also urged the loved ones to adhere to their lessons and homework, develop their skills, take care of their health, seek Allah's content, love their country, and work on serving their country and people in the future, as well as following the example of the elders and benefit from their successful experiments.
