

Sayyid Al-Hakeem partake in the memorial service for The Victory Leaders

During the memorial service held by the Embassy of the Islamic Republic of Iran to Baghdad on the anniversary of the martyrdom of the Victory Leaders "May Allah's mercy be upon them" on 31/12/2022, Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, affirmed that speaking of martyrs and their national, ideological, and heroic value to their peoples and communities is a very complex and difficult task, with which words are unable to describe the sacrifice to which the martyr have made in defense of his religion, his people, his land, and his homeland. His Eminence said: "To fulfill them and their principles, we must all remember their sacrifice and valiant heroism, to cleanse our souls, to commemorate their memory, to glorify their path, and to uphold their principles to preserve this great legacy and do our utmost to protect our homeland, our values, and our inherent constants, recalling their commitment "MAMBUS" and their obedience to the Supreme Religious Authority of Imam Al-Sistani "May He long live" in fulfilling the honorable fatwa by defending the land, the people, and the sanctities".

His eminence illustrated: "The martyrs founded with the blessings of the blessed fatwa a large school that took it upon itself to raise a generation of believing national leaders in a blessed and sober institution entitled the Popular Mobilization Authority." H.E. called for the preservation of this sacred institution, its status, its sanctity, and the principles for which it was founded. In honor and fulfillment of those historic sacrifices, the Victory leaders have shown that they are combating terrorism, extremism, militancy, and takfir on behalf of the region and the world. Far from being passionate and out of human and national constants, they saw themselves as obliged to rescue Yazidi and Christian women as they saw them self as obliged to rescue the women and girls of Tal'afar Turkmen Shia women, they saw their duty to save the children of Kurds, Sunnis and Shia of Turkmen and Shabak with equal importance and redemption, and with this spirituality, they won everyone's respect and appreciation.

H.E. reiterated his call to resolve differences through dialogue and understanding, not through liquidation, brutal assaults, and assassination methods.
