

Sayyid Al-Hakeem: Diyala reality gives adherence to the social fabric, promising projects assurance

At Al-Bawi clans host in Diyala on 2/3/2023, Sayyid Ammar Al-Hakeem met a group of sheik and Dignitaries of Al-Bawi clans led by Sheikh Khalid and Hajj Falih Al-Bawi. His Eminence reiterated his pride in the positions he heard in support of the community peace of all the genuine Iraqi components and clans in Diyala.

His Eminence illustrated that this reassurance comes from two things: Diyala people's adherence to their diversity and the identity of their city as a miniature Iraq, and the second is the level of development in the city, where he observed dozens of promising projects capable of changing the reality of the governorate for the better.

H.E. reaffirmed the importance of maintaining security stability, stating that security stability is a prerequisite for investment flow, noting Diyala's promising opportunities in agriculture, energy, and other sectors.
