

Sayyid Al-Hakeem: Najaf Al-Ashraf and Al-Azhar Al-Shareef represent Islamic moderation

Sayyid Ammar Al-Hakeem, head of Al-Hikma National Movement, stressed that Najaf Al-Ashraf and Al-Azhar Al-Shareef represent the Islamic line of moderation, recalling the history, communication, and exchange of knowledge and literature between the two lighthouses on previous occasions.

This came in His Eminence's response to the interventions of the salon of elites and competencies organized by Dr. Mohammed Abu Kalal in the Egyptian capital Cairo on Monday, 29/5/2023, reviewing the current reality of Iraq and its developments, explaining that the interest of Iraq lies in being with its interests and not with one party against another with the need to open up to everyone and interlock interests with them.

His Eminence pointed out that the path of development represents an economic system for Iraq and the region, urging the need to intertwine interests instead of clashing, pointing out that the State Running Coalition represents a cross-component alliance with a national title and a core for joint action.

His Eminence stressed the importance of political preparation for the transition to the stage of State Administration by half plus one, pointing to the importance of the presence of the weight of the components in any alliance, explaining that the political disagreement within one component is a health condition, as it is proof that the differences are political differences and not differences between the components.

H.E. Sayed Al-Hakim said that the restoration of the Saudi-Iranian relationship is aimed at the stability of Iraq and the region, indicating that interests imposed themselves on useless conflicts.

H.E. added that the Popular Mobilization Forces is an institution of the military state institutions and is held by the order of the commander-in-chief of the armed forces, explaining that the Popular Mobilization Forces is continuing on the path of institutionalization, development, and training, as it is a striking fighting force with experience in combating terrorism.

H.E. reiterated that the position supports the cause of the Palestinian people, citing the law

criminalizing normalization with the Israeli entity, which was legislated by the Iraqi parliament.
